

Table 1

Competency	Essex Graduate	Skill	Skill Level	Evidence	Skill Level Key	
Professional	Literacy, Communication, Language Skills	Express information effectively to technical and non-technical audiences	Proficient	Wrote executive summary communicating risk findings to a non-technical business owner (Pampered Pets)	Aware	General understanding and basic knowledge
		Create documents to aid communication	Proficient	Produced risk identification report with tables, diagrams, and structured analysis	Trained	Able to apply knowledge, able to work independently under certain conditions
	Commercial Awareness	Keep current with tools and emerging technology	Trained	Explored STRIDE, DREAD, attack trees, and CVSS frameworks across Units 2–3	Proficient	Broad and in-depth knowledge, able to work independently with very little supervision
		Participate in professional organisations	Aware	Took part in module wiki and collaborative discussions	Expert	Seen as a subject matter expert, able to lead and train others.
		Emphasise quality and fair application of policies	Trained	Applied ISO/IEC 27001 and NIST RMF standards throughout assessments		
		Demonstrate familiarity with codes of conduct	Trained	Engaged with GDPR and ethical considerations in ISM practice		
Legal and Ethical	Ethical Awareness	Comply with applicable laws	Trained	Maintained scope and legal compliance throughout risk report		
		Maintain privacy and confidentiality	Trained	Applied responsible disclosure principles in threat modelling		
Social	Teamwork, Leadership, Resilience, Time Management	Collaborate effectively in diverse teams	Proficient	Contributed actively to peer wiki and collaborative discussion forums		
		Meeting team objectives using teamwork skills	Proficient	Met shared deadlines in group wiki contributions (Units 4 and 5)		
		Give and receive constructive feedback	Proficient	Exchanged peer feedback in Unit 2 collaborative discussion		
	Creativity, Problem Solving, Decision Making	Deliver strategies for sustainability for all stakeholders	Trained	Produced actionable risk mitigation recommendations for Pampered Pets		
		Make decisions using multiple sources of information	Trained	Prioritised risks and justified mitigations using NIST RMF and ISO/IEC 27001		
Technical	IT and Digital, Numeracy	Python Programming	Proficient	Built Python attack tree application with interactive input, graph visualisation, and risk aggregation		
		Scripting Language (Python)	Trained	Used NetworkX, Matplotlib, and pytest in attack tree project		
	IT and Digital, Numeracy	Use of Word Processing tools and Spreadsheets	Trained	Produced formatted risk reports and risk register tables		
		Git — repository development and maintenance	Proficient	Managed attack tree codebase on GitHub with commits and version control		
		Use of conferencing technologies and Moodle (VLE)	Trained	Engaged in online discussions and wiki contributions		
Subject Application	Global Citizen, Teamwork, Emotional Intelligence	Take into account other people's perspectives	Proficient	Balanced multiple viewpoints in collaborative wiki debates on future ISM trends		
		Work constructively with differences in viewpoints	Expert	Managed respectful discussion across peer responses		
	Decision Making, Ethical Awareness	Develop, articulate and clarify personal values and ethics	Proficient	Reflected on ethical impact of risk decisions and compliance obligations in ISM		

This is by no means a comprehensive list of Professional skills required for your programme. It is As you progress through the course, you will discover other skills you need to develop or currently have. These can be described in further detail in your SWOT analysis/action plan.

As this is required in various modules, you may end up with different versions of this Matrix. You can collate them in your Learning Loop as part of your final PDP at the end of your programme.

Adapted from BCS guidelines and Essex graduate
